### CPECC wins contract at Rumaila

China Petroleum Engineering & Construction Corp. (CPECC) signed a US\$ 386 M contract for the design, procurement, construction and testing of new crude oil processing facilities at the giant Rumaila oilfield, marking the first new crude processing facility in the past 10 years. The plant, located at Quraynat, will include two units with a capacity of 120 kb/d each. The contract will take effect on November 16, with construction expected to take 36 months indicating completion by end-2025 / early 2026. The award was made by the Basra Energy Co. Ltd (BECL), which was established in 2021 to operate the field.
